

We needed to build a fire escape for the third floor. After it was finished we tested it for strength.

We have finally made it into our new sanctuary. On the last Saturday in June all of our churches were invited to come and help us dedicate our building to God. We were very pleasantly surprised at how well our building held 80 plus people. Each of our five churches were represented. They, along with others brought gifts for our new building. Men and pastors from each church were given time to encourage the new church in Yarmag to contend for the faith and be a lighthouse to all those living around them.

Gifts from the churches

There are still two important parts of our building that we need to complete. We had to replace the expensive Russian electric heating system with a coal burning system. This will require that we build an additional room on the back of our building to house the stove and storage for the coal. This stove costs \$5000 and we are very grateful for the New Hope MBC of Oroville, CA. They have sent a special offering to pay for this.

We also need to put in a kitchen where the old heating system was. Everyone at Yarmag is anxious for Pastor Dennis and Sister Charlotte to return and lead out in the evangelism of the this growing community.

ARE YOU HAVING A MISSIONS CONFERENCE?

There have been some changes in the Cooper's planned time in the states this year. We have only had the opportunity to be a part of one missions conference since becoming part of this work. This was while we were on deputation in early 2007. We would love to have the opportunity to be part of one this fall, and share the many wonderful things God has done and is doing in Mongolia. We would be available in September or October. We can be contacted by email at fwcooper@mongolianteam.org.

June was the month of Summer Bible Schools in our churches. A total of about 200 kids heard about Jesus. Pictured is Chingeltei Baptist Church's kids. The church in Chore had to hold some classes outside due to the good attendance. Our teachers decide on a theme, write their own lessons, design crafts, songs, and write a drama for each class to present to their parents!
