

NOVEMBER A TIME OF THANKSGIVING

It is always good to be thankful for what God has blessed us with, but there is always something special about sharing the Thanksgiving Holiday with God's people. We once again got to share the history of Thanksgiving and recount some of the great blessing God has given to the churches here in Mongolia. You all are a part of that blessing with your support and prayers for the work being done here. For that we are so thankful for you all.

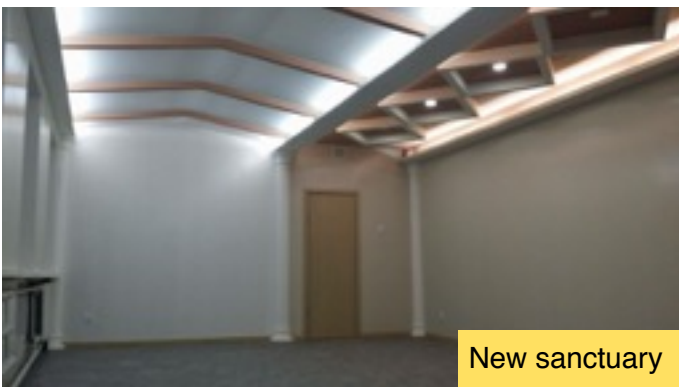

WE'RE NUMBER ONE!

There are somethings that you don't want to be counted as number one. As reported by the Mongolian Post, "Ulaanbaatar's Air Pollution Breaks

China's Record." The article reads in part, "the recorded level of particulate matter in Ulaanbaatar's air was 25 times higher than the suggested guidelines of the World Health Organization (WHO), breaking Beijing's record for dangerously high levels of air pollution." Each year the smoke from the coal burning stoves, the

New sanctuary

uncontrolled industrial smoke, and unmaintained vehicles continues to get worse. This is very hard on the people living in our city. The government has recently closed the ministry set up to help provide low cost, cleaner burning stoves to households. This is due to lack of funds. Living conditions have improved in several ways but have gotten worse in

many other ways, with no hope of getting better. Our churches truly look forward to coming of our Christ and Savior. Our hope is not in this world, and if you believe the Bible it is not going to get better till we see Christ.

UGINOOR BAPTIST CHURCH REMODEL

The remodel of the foyer, sanctuary and one classroom has been completed in Uginoor. The sanctuary will hold 40 Americans or 60 Mongolians. There is still much to do but most of this will need to wait until Spring. We are planning a septic system for the building, thus making it one of the only buildings in the Uginoor with indoor restroom and shower. This month also saw a group of young people from Rich Heart NT Baptist Church travel to Uginoor to help out with Sunday services.

BRaille BIBLES BEING USED

Our thanks go out to Brother Marvin Prevost and his Desktop Publishing Ministry in California. If you follow our reports, this last summer we were able to print 5 copies of the KJV MGL New Testament using a trial version of a Braille printing program. This program cost almost \$600 to purchase. Desktop Publishing donated the money needed to purchase the program. We will now use it to publish SS material and songs. Thank you Brother Marvin.
